

Cal State Fullerton, Center for Autism
Autism Emotion and the Family Project

Do you:

- Have a child between 6 and 10 years old, diagnosed with an **Autism Spectrum Disorder (ASD)**?
- Want to help researchers understand the emotional development of children with ASD and what families can do to help?

Participation includes a parent-child research visit, psychophysiological measurement of emotion, child assessment, and parent questionnaires. **Families are compensated \$75 for their time.**

Contact Dr. Jason Baker: 657-278-1088 or jbaker@fullerton.edu

Principal Investigators are **Dr. Baker and Dr. Rachel Fenning**. This study is conducted through the Dept. of Child & Adolescent Studies in the College of Health & Human Development.
