Keynote Speaker:
Stephen Hinkle, M.Ed.

Stephen Hinkle has been speaking around the country for over 13 years in the fields of Autism, Inclusive Education, and Disability Policy. He obtained a Master’s degree in Special Education with emphasis in Disability Policy Studies from Northern Arizona University in 2011 and graduated with a Bachelor’s degree in Computer Science in 2007 from San Diego State University. He graduated from high school in 1997 with a standard diploma and was mostly in regular classes since 4th grade. When Stephen was diagnosed with Autism, his parents were told by a psychiatrist to institutionalize him. He was never institutionalized and was raised as a normal child with special needs. He spends his time training teachers and parents to help people with special needs succeed. In addition, he also works to help school systems, advocacy organizations, and others adopt better policies and methods to improve the success rates of people with special needs.
